### **SAI KRISHNA ENGG. & CONSTRUCTION PVT.LTD.: –**

We established in 2005 as Engineering & Construction Company In the field of slip form technology. The company is also engaged in Design, development and Manufacturing of a comprehensive range of Jacks (3MT, 3.5MT, 6MT, 12MT & 18 MT, for tank erection & etc.) and slip form equipment.

**SAI KRISHNA** developed confidence with successful completion of several Civil (slip form) Construction projects including RCC Over head water tank shaft. The Company also constructed bridge pier projects, water works and large capacity SILOS. The company pioneered in SLIPFORM system. From 2006 onwards Chimney Construction became the main thrust in the Company's business. In order to undertake turnkey projects, the Company started deals in tank jacking equipment's Department in 2008, to provide an integrated solution for industries, as it is preferred , fastest & safe method for erection of steel storage tank.

**SAI KRISHNA** has a well-defined privilege of successfully completing over 80 projects at site and more than 450 job works at fabrication shop.

Hydraulic Jacking Systems for tank erection is the fastest way of construction; and we are the genuine and leading supplier of hydraulic jacking system / equipment's for tank erection, since 2005. We manufacture our entire product in our workshop at Mumbai (Thane). Each machine is quality checked and performance tested and carefully packed. We believe in first class customerservice and are committed to build life-long relationship with customers.

**SAI KRISHNA ENGG. & CONSTRUCTION PVT. LTD** has contributed significantly in the growth of Infrastructure in the country over the last Eight year and continues to provide solutions in the field of Civil Engineering. Searching for new and innovative methods of solving present day construction challenges is an integral part of the Company's being. The Company is credited with pioneering the art of integrating engineering and functioning of hydraulic jacks.

**We are the specialist in the construction of any kind of hydraulic operated structure like RCC Chimney, Clinker silo, Cement Silo, Fly ash silo, Bridge pier, Pipe rack, overhead water tank, STEEL Floating & dome roof tank and prilling tower . We are the pioneer in the field of slip form technology and working with the leading companies.**
